***CosmicBreak*: Game Overview**

CosmicBreak is a super-speed, free-to-play multiplayer 3D robot shooter adventure. Powerful robots, constant shooting battles, and an all-out fight to the finish will determine the fate of the world!

The long-dormant race of gigantic robots called Arks have suddenly awakened to find their galaxy is now ruled by the evil Chaos, and the three remaining Arks – Courage, Strength, and Wisdom – must use their energy to conquer their universe once again. Dedicated followers of each of the three great Arks have formed three rival Unions, each battling for the right to revive their respective Ark. Who wins the battles and defeats Chaos is up to you!

CosmicBreak has three game modes for constant action

Arena Mode: The game combines fast and furious shooter action (PvP Arena Battles, Capture the Flag, etc.) with powerful robots, blasting fire power, and fighting mayhem! Players fight in explosive matches of up to 60 people at once and may choose from over 50 different character-piloted robots.

Mission Mode with five levels of difficulty: Join forces with other players to challenge the evil Chaos army NPCs. Up to five players can form a party and launch their devastating assault!

Quest Mode: Go treasure hunting on vast and unexplored planets. Endless monsters and mazes challenge players' very survival!

Unique Robot Editor for creative players

CosmicBreak features an innovative Customization and Skin Editor system that allows players to create and customize their own personal robots. Create original robots from scratch by mixing and matching over 300 different parts, use the Skin and Polygon Editors to give them custom paint jobs, then take them to the Arena and show them off to other players.

CYBERSTEP BEGINS ENGLISH OPEN BETA TODAY FOR 3D MMO ROBOT SHOOTER *COSMICBREAK*; GAMEPLAY VIDEO FOOTAGE RELEASED

In-game radio event today!

Free limited edition Gold Metallic Zero Saber robots still remaining!

Unique Editor System allows players to customize their robots.

LOS ANGELES, CA – 10th JUNE 2010 -- The Los Angeles-based development team of Japanese online game publisher CyberStep announced today the start of its English Open Beta for *CosmicBreak*, their upcoming 3D robot shooter multiplayer online game. Official release date will be announced later this summer.

To mark that announcement CyberStep is offering many surprises including a commented gameplay video footage, free limited items up for grabs, and invitation for gamers to join a special in-game radio event on June 10th hosted by *CosmicBreak*'s developer.

The art of customization uncovered!

Gameplay video footage, narrated by Tempura, one of the Game Masters of *CosmicBreak*, was released today at <http://www.youtube.com/watch?v=7pIGWAAPfy0>

More than a tutorial, this special Open Beta footage explains how to customize a pre-selected robot using the skin editor and couple of ways to fight! Check out how Tempura's original black robot takes shape with an extra arm and a face you can't miss! To get more secrets, tips and behind the scene news gamers are invited to join the first **in-game radio event on June 10th**! Stay tuned and connect today at **1:00 PM, PDT (8:00 PM, GMT)**.

More surprises await you including the limited edition Gold Metallic Zero Saber robot for free. Wait 'til you see what this super-powerful robot can do! There is a limited supply so get hurry and sign up now at <http://www.cosmicbreak.com/ad/code/ivYefNg8>

***CosmicBreak*: Game Overview**

CosmicBreak is an anime style 3D MMO third person shooter adventure with big robots, colorful and explosive battles, and fast-paced missions in a world long ruled by galactic anarchy. The long-dormant race of gigantic robots called Arks have suddenly awakened to find their galaxy is now ruled by the evil Chaos. The eons of dormancy have drained energy from the remaining three Arks of Courage, Strength, and Wisdom, and now only enough energy remains for one of them to fully revive with the power to vanquish the evil Chaos.

Dedicated followers of each of the three great Arks have formed three rival Unions, each battling for the right to revive their respective Ark.

Which Union will emerge as the one super power to defeat Chaos and determine the fate of the world?

Gamers can fight, shoot, and smash their way through three gameplay modes:

***Arena Mode*:** The game combines fast and furious action shooter action (PvP Arena Battles, Capture the Flag, etc.) with powerful robots, blasting fire power, and fighting mayhem! Players fight in explosive matches of up to 60 people at once by controlling several of over 50 character-piloted robots.

Mission Mode with five levels of difficulty: Join forces with other players to challenge the evil Chaos army NPCs. Up to five players can form a party and launch their devastating assault!

Quest Mode: Go treasure hunting on vast and unexplored planets. Endless monsters and mazes challenge players' very survival!

Robots: Over 50 types that players can customize using the unique Editor System!

The many small, medium, and large robots in *CosmicBreak* are divided into four types:

Air: Longer-lasting boosters; specialize in mid-air agility and air-based attacks;

Land: On-ground combat and melee attacks; speed and maneuverability;

Artillery: Long-range attack; stronger projectile weapons with superior firepower; and

Support: Balanced robots without major strengths or weaknesses; special repair skills.

Using the unique **Editor System**, players are free to mix, match, disassemble, and rebuild their robots however they see fit. Experimenting with over 300 parts and weapons plays an important role in developing stronger robots and gaining an edge over other players in the Arena. Robots may also be custom painted using the Skin Editor, and some parts may even be reshaped using the Polygon Editor.
